**HARIKRISHNA A. RAVAL**

**Quality Analyst | Software Testing Associate | Entry-Level QA Analyst**

Gandhinagar / Ahmedabad, Gujarat | +91 6353530773|hkraval2022@gmail.com

## PROFESSIONAL SUMMARY

Entry-level Manual QA candidate transitioning from technology operations and client-facing consulting. Practical experience testing login validation, product catalogue behavior and shopping-cart workflows on SauceDemo; documenting test cases, actual versus expected results, and defects in Jira Cloud. Brings structured troubleshooting, process documentation, stakeholder coordination, and attention to detail from previous roles. Available for junior QA, manual testing, and software testing associate opportunities.

## MANUAL TESTING SKILLS

Functional testing • Positive and negative testing • UI testing • Smoke and regression testing fundamentals • Test scenarios and test cases • Defect reporting and retesting workflow • Expected vs. actual results • Test evidence • Jira Cloud (Kanban, Task, Bug) • SDLC / STLC fundamentals • Boundary value analysis • Equivalence partitioning • Agile / Scrum fundamentals • Basic SQL (SELECT, WHERE ORDER BY, COUNT)

## HANDS-ON QA PROJECT

**Manual Web Application Testing — SauceDemo | Independent practice project** • October 2026

- Executed and documented manual test cases for successful login, incorrect-password rejection, empty-field validation, add-to-cart and remove-from-cart flows.
- Recorded test steps, preconditions, expected and actual results, and PASS outcomes in Jira (KAN-4, KAN-5, KAN-6 and additional cart test tasks).
- Identified reproducible product-image mismatch when using the demo problem_user account; opened Jira Bug KAN-7 with steps to reproduce, observed behaviour and QA follow-up notes.
- Practiced Kanban status tracking, issue assignment, defect severity/priority concepts, and the distinction between test case completion and unresolved bugs.

## PROFESSIONAL EXPERIENCE

**Team Lead – Activation | Red Wireless (Rogers Authorized Dealer), Canada** • Jul 2024 – Jan 2025

- Coordinated daily activation workflows, monitored accuracy of operational requests and supported resolution of service-related exceptions.
- Helped team members troubleshoot transaction and process issues; communicated outcomes to relevant stakeholders.
- Maintained process consistency, followed established procedures and supported day-to-day operational reporting.

**Wireless Operations Assistant | Red Wireless (Rogers Authorized Dealer), Canada** • Oct 2022 – Jul 2024

- Handled operational requests and data entry with emphasis on completeness, accuracy and follow-through.
- Investigated order/activation discrepancies, documented issues and coordinated corrective actions.

**Independent Credit Rating Consultant | India** • 2013 – 2021

- Supported approximately 350 corporate clients through documentation, information gathering, and coordination of credit-rating engagements.
- Reviewed supporting information for completeness and consistency and communicated requirements, follow-ups and findings across stakeholders.
